

#### **Birmingham City Council**

10 Woodcock Street, Birmingham B7 4BL

Dear Clive Vernon,

WAYLEAVE SEARCH at: Parkland at Boleyn Road Frankly Birmingham B45 0LU

Thank you for your request. We have now completed a search of the Wayleave Archives and: -

- We can confirm a wayleave agreement has been found
- We have been unable to find any wayleave agreements for this location

#### SITE DEVELOPMENT

If your client is proposing to develop this site, any proposed method for serving your clients property would need to be discussed in detail with the BT planner following an order for telecommunications service.

#### **BT APPARATUS LOCATION PLAN**

Enclosed you will find plans showing the approximate location of BT apparatus, please note it's intended for general guidance only. No guarantee is given of its accuracy.

Yours faithfully,

James Winter

Head of Severn Trent Searches

Date of issue: shown on map

email: nnhc@openreach.co.uk

Dear Customer,

NR & SW ACT 1991 – PROPOSED WORKS AT: Parkland at Boleyn Road Frankly Birmingham B45 0LU

Prior to commencement of work: For free onsite guidance and accurate up to date location of BT Apparatus please contact our Plant Protection Service by the following methods:-

Email the Click Before You Dig <u>Team CBYD@openreach.co.uk</u> Visit the Click Before You Dig Website <u>www.openreach.co.uk/cbyd</u>

Thank you for your request on the 26/03/2020 describing the above proposals.

Enclosed are copies of our drawings marked up to show the approximate locations of BT apparatus in the immediate vicinity of your works. It is intended for general guidance only. No guarantee is given of its accuracy.

The drawings are valid for 90 days from the date of issue and should not be relied upon after this time period has expired.

When planning excavation work or other works near to BT apparatus, please be mindful our apparatus may exist at various depths and may deviate from the marked route.

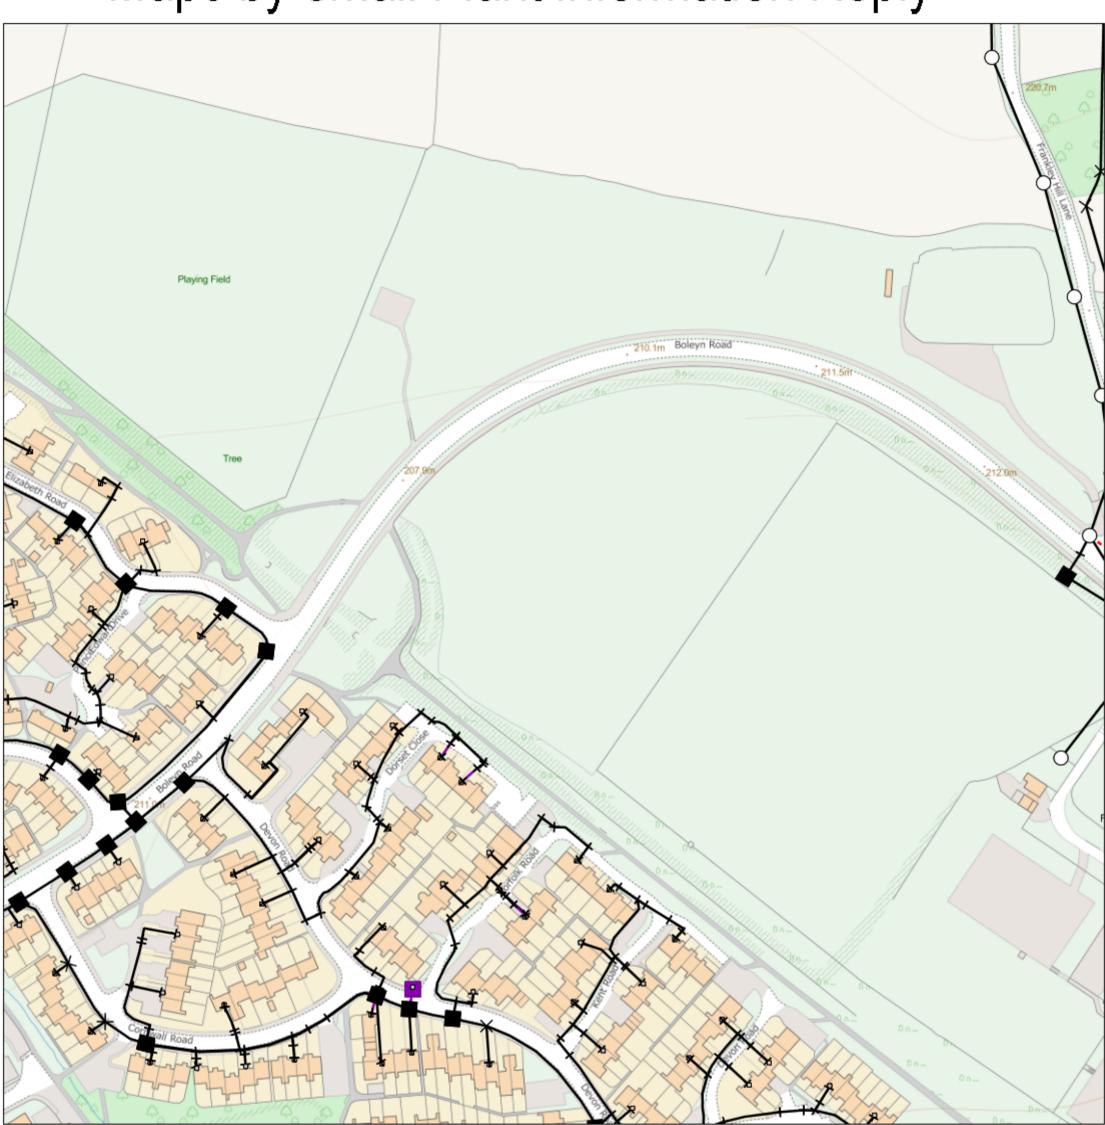

To avoid damage it is recommended that mechanical excavators or borers are not used within 600mm of BT apparatus. If scaffolding is erected, please ensure that our equipment is not enclosed, blocked, covered or otherwise obstructed by the scaffolding.

In the event of BT apparatus being in the area of your works we recommend that your plant/vehicle crossing is either resited, or apply for a budget estimate by submitting detailed plans to our Network Relocation Team at <a href="https://www.ournetwork.openreach.co.uk/altering-our-network.aspx">https://www.ournetwork.openreach.co.uk/altering-our-network.aspx</a>

Yours faithfully,

Julie Cullum NNHC & MBE Manager

## **Openreach Plant Maps Requested**

NewSite Office (addresses can be found on the New Developments contact page)

#### Dear Sir/Madam,

You have downloaded copies of our drawings marked up to show the approximate location of Openreach apparatus, which is present in the immediate vicinity of your works. It is intended for general guidance only. No guarantee is given of its accuracy. It should not be relied upon in the event of excavations or other works made near to Openreach apparatus, which may, exist at various depths and may deviate, from the marked route.

To avoid damage it is recommended that mechanical excavators or borers are not used within 600mm of Openreach plant. Please ensure that our equipment is not enclosed, blocked, covered or otherwise obstructed by your plant. In the event of clearance not being adequate we anticipate that your plant is either resited, or an order is placed with Openreach for rearrangements of its plant. If there are any difficulties with the Map please email <a href="mailto:cbyd@openreach.co.uk">cbyd@openreach.co.uk</a>

Please contact our Network Protection Service by Email on <u>cbyd@openreach.co.uk</u> giving four calendar weeks notice of your commencement date. This will provide you with on-site advice and a check of location for any Openreach apparatus.

Further to this, I hope the following points will assist you at the new development: -

Openreach has a licence obligation to provide service to any end customer requiring a connection. A Developer would not normally be charged for provision of service, our standard connection charges would apply to the end user when orders are placed with the communication provider of choice. However, should a Developer insist on an underground service in an area where Openreach plant is provided overhead, charges may be incurred.

When the Developer has obtained contract and planning permission Openreach would request a 'Clean', scaled Site Layout, Location Map and a covering letter be sent to the relevant newSite Office. We would particularly request that you give details of your programmed site start date and likely first occupancy date where possible. To obtain contact details of the newSite office covering the development area click on the URL below.

#### http://www.newdevelopments-openreach.co.uk/ContactUs.aspx

Where a development affects existing Openreach apparatus in the public highway, the cost of any necessary protection or diversionary works must be borne by the Developer. In this case where a budget estimate is required a Site Plan, Location Map and a covering letter should be forwarded to the Repayments Project Office. Please visit <u>www.openreach.co.uk/alterationscontacts</u> for contact details of the Repayments Office covering the development area.

Yours faithfully,
