

ENVIRONMENTAL POLICY

The Board of Directors of Lambert Smith Hampton is committed to reducing the impact of its operational activities on the environment.

- Complying with legal and other related requirements and driving continual improvement in environmental performance through compliance with ISO 14001
- Preventing pollution and reducing LSH's impact on the environment by identifying and reducing the environmental impacts of its operational and design activities
- Developing, practicing and improving policies, procedures, objectives and targets to promote environmentally friendly and energy efficient practices
- The use, wherever practicable, of materials and products originating from sources which can be shown to be sustainable and which are re-usable or can be recycled
- Ensuring that all staff are aware of the risks posed to the environment by LSH's operational and design activities and of the measures taken to protect it
- Ensuring that all waste(s) produced by LSH's operational and design activities are processed, stored and disposed of in such a way as to avoid causing damage to the environment
- Encouraging environmentally responsible behaviour from all of LSH's employees and promoting an environmentally considerate culture within the organisation
- Encouraging suppliers and sub-contractors to comply with LSH's Environmental Policy and to adopt similar standards themselves
